

Derek Nguyen

Technology Commissioner

February 10, 2021

Mrs. Mortenson

Formal ASB Report

Position Assessment:

During the months of January and February, I have helped by creating videos for the leadership team. This includes already working on the end of the year video, such as videoing and editing for girls and boy basketball as well as boys and girls wrestling. On top of this, I set up the projector for the rally. I helped the seniors with Winterfest as well.

Standing Committee:

I am a member in link crew.

Special Committee:

I did not partake in any special committees

Mentorship Evaluation/Completion at time of Meeting:

My mentorship partner was James Wilkins. James is and always will be a kind and warm hearted person. I have helped him with whatever he needed. This included helping with the valentine cards and website when he was confused. Doing this mentorship evaluation is key to having great relationships with new people and was well implemented into this program. I took him out to lunch and showed him a few things about highschool.

Concerns:

Only concern I have is getting a 0/10 when donating money. I don't believe this is ethically right and should at least get a N/A.

Positive comment:

Gideon has been doing his job. I see him recording at events throughout highschool so he can put into the end of the year video.

Change:

A change I would like to see is Winterfest and how it is we do too many decorations. I believe that we should focus more on one special project and making it look so good rather than having many shitty projects that no one really cares about. Personally, I heard a lot of people say that they wanted one major project and focus the week on that said shopping cart and not doing pillars. Decorating pillars was a waste of time and looked mid. Same with the Windows and other decorations.

My impact:

I have changed the world today by spreading positivity through the beauty of film. Filming and editing videos for end of the year video, creating and filming multiple videos for the school and class to see, I was able to impact today's society despite it being so little.
